PROFESSIONAL SUMMARY

+ Python Full Stack Developer with knowledge in building back-end systems, REST APIs, and responsive web applications. Skilled in Python, Django, Django REST Framework, MySQL, HTML, CSS, JavaScript. Able to develop clean and scalable applications with a focus on performance, problem-solving, and continuous learning.

TECHNICAL SKILLS & TECHNOLOGIES

Backend Development: Python, Django, Django REST Framework, REST APIs, JSON Web Token

Frontend Development: HTML5, CSS3, JavaScript, React.js, Bootstrap

Databases: MySQL, MONGODB

Deployment & Tools: Postman, MySQL Workbench, MONGODB Compass

Version Control: Git, GitHub

PROFESSIONAL EXPERIENCE

Python Full Stack Developer Trainee | SMEC Technologies

- Python Full Stack Development focusing on Django, MySQL, React.js, and REST API development.
- Practicing the creation of responsive and user-friendly web applications using HTML5, CSS3, JavaScript, and React.JS.
- Learning backend development with Django, including models, ORM, authentication, and database driven features.
- Implemented secure user authentication, authorization, and role-based access control using Django.
- Gaining hands-on exposure to Git & GitHub for version control, Postman for API testing.

PROJECT – Smart Business Analytics and Reporting Platform

Technologies: Python, Django, Bootstrap, JavaScript, Pandas, Scikit-learn, HTML, CSS, MySQL

- Developed a full-stack web application that enables users to upload business data and generate interactive analytics reports.'
- Implemented secure user authentication and role-based access control for managing user access.
- Built RESTful APIs using Django REST Framework to support data processing and frontend integration.
- Designed dashboards with charts and visualizations to present key business insights.
- Implemented automatic column detection and mapping to simplify data import from different dataset formats.
- Integrated AI-powered report generation to provide automated summaries and actionable insights from uploaded datasets.
- Developed data processing pipelines using Pandas to clean, transform, and aggregate uploaded datasets for accurate analysis and reporting.
- Managed project source code using Git and followed version control best practices throughout development.
- Followed MVC architecture, REST principles, and clean coding practices to build a scalable and maintainable application.

EDUCATION

Bachelor of Commerce (B.com) Co-operation, St. Thomas College (MGU)

Higher Secondary (Commerce) St. Joseph College

CERTIFICATE

LinkedIn Learning - Generative AI, Artificial Intelligence (Certificate ID:
868dac6ab436a93e0965db36fcb6046cee2338636756b666dff42ecb504c7c9f)
